## 1. Introduction

Thank you for choosing Bristan, the UK's leading taps and showers expert. We have designed this product with your enjoyment in mind. To ensure that it works to its full potential, it needs to be fitted correctly. These fitting instructions have been created to give you all of the information you need and, if you need any further help, please do not hesitate to give us a call on 0844 701 6273.

## 2. Safety Note

Please read these instruction thoroughly and retain for future use. All products manufactured and supplied by Bristan are safe provided they are installed correctly, used correctly and receive regular maintenance in accordance with these instructions.

## 3. Specification

Designed to comply with BS EN 274-1:2002 Waste fittings for sanitary appliances.

## 4. installation - W BASIN06 C(slotted)

1. Identify all components are present prior to instillation.
2. Unscrew the backnut (4) and remove one of the rubber washers (3). Fit the waste body from above the basin with the first washer. Locate the bottom of the waste.
3. Secure the waste with backnut (4) and second washer (3). Use a pure silicon sealant where necessary.
4. In order to fill the basin, the 'clicker' mechanism (1) of the waste needs to be pressed down. To release water, press button again.
5. Check all joints and connections for leaks.

### Parts contents list

1. Clicker mechanism	x1
2. Waste body/ flange	x1
3. Washers	x2
4. Backnut	x1

## installation continued - W BASIN07 C (unslotted)
